In re Application of MIYAZAWA et al
U.S. Application No.: 09/869,458
Int. Application No.: PCT/JP99/07397
Int. Filing Date: 28 December 1999
Priority Date: 29 December 1998
Attorney Docket No.: 1576.89
For: PROCESSES FOR PRODUCING
ACRYLIC ACID DERIVATIVE

DECISION

This is in response to applicants' "Renewed Petition Under 37 C.F.R. Section 1.182 to Correct Inventor's Name" filed 13 February 2002.

BACKGROUND

On 28 December 1999, applicants filed international application PCT/JP99/07397, which claimed priority of an earlier Japan application filed 29 December 1998. A copy of the international application was communicated to the USPTO from the International Bureau on 13 July 2000. A Demand for international preliminary examination, in which the United States was elected, was filed on 15 June 2000, prior to the expiration of nineteen months from the priority date. Accordingly, the thirty-month period for paying the basic national fee in the United States expired at midnight on 29 June 2001.

On 26 June 2001, applicants filed national stage papers in the United States. The submission was accompanied by, *inter alia*, authorization to charge the basic national fee required by 35 U.S.C. 371(c)(1) and an executed declaration.

On 06 August 2001, the United States Designated/Elected Office (DO/EO/US) mailed a Notification of Missing Requirements Under 35 U.S.C. 371 (Form PCT/DO/EO/905), which indicated that a properly executed oath or declaration in compliance with 37 CFR 1.497 must be filed along with a surcharge under 37 CFR 1.492(e) for providing the oath or declaration later than thirty (30) months from the priority date.

On 04 October 2001, applicants filed a petition to correct an inventor's name.

On 29 November 2001, this Office mailed a decision dismissing the 04 October 2001 petition.

On 02 January 2002, applicants filed a renewed petition to correct an inventor's name.

On 23 January 2002, this Office mailed a decision dismissing the 02 January 2002 renewed petition.

On 13 February 2002, applicants filed the present renewed petition to correct an inventor's name. The petition states that it is accompanied by, *inter alia*, a statement by the inventor in question.

DISCUSSION

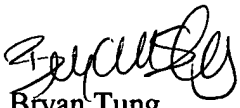

A review of the application file reveals that the given name of the third inventor is listed in the international application as "Hiroshi" while the given name is listed in the declaration as "Yutaka". Applicants have submitted acceptable statements by the inventor Ishii and by Ishii's supervisor. The statements set forth the specific circumstances as to how and when the error was made and discovered and set forth that the mistake was an inadvertent error without deceptive intent. The fee for filing a late declaration will be applied to the petition fee as requested in the new petition.

CONCLUSION

For the reasons above, the renewed petition under 37 CFR 1.182 is GRANTED.

The application has an International Filing Date of 28 December 1999 and a date under 35 U.S.C. 371 of 26 June 2001.

The application will be forwarded to the DO/EO/US for processing in accordance with this decision.
